

## UNDERSTAND

the needs  
of patients by giving them a  
voice

**PROPOSE**  
adapted solutions

## CREATE

a collective game to  
advance the health  
ecosystem

# HEALTHTECH FOR PATIENTS

**JUNE 7th, 2021**  
**Digital & Free event**

**Pre Registration**

**Organized by**

Non-profit organisation

The HealthTech For Care endowment fund,  
is designed to support and promote access to  
care for all and, more specifically, to new medical  
technologies

# How HealthTech For Care could be foreseen as the right organizer?

The fund's initiatives and events, with a European dimension, will bring together all the players involved in the medical innovation value chain, enabling better coordination within the European health ecosystem.

The development of methods and spaces for sharing anonymized health data is essential to accelerate the development of innovative solutions for the patient.

In this context, the ambition of HealthTech For Care is to inform the entire ecosystem about this subject and to question it about the methods currently in place:

**Did the requests from patients association met ? Those needs of patients and the patient associations that represent them at the heart of innovation?**

## Our Objectives

**Present** the anonymized health data sharing tools currently being developed and allow patient associations and other key players in the health innovation ecosystem to exchange on their expectations so that these tools meet patient-focused projects.

**Present** the difficulty accessing data for some clinical trials and how to optimize the use of these data to speed up patient access to these drugs.

**Present** concrete cases at the European level to demonstrate the power of our healthy European ecosystem and the need to play a collective game.

"HealthTech For Patients is completely in line with HealthTech For Care's strategy to ensure that all innovative French and European technologies are accessible to all patients who are therefore key in the process.»

- Maryvonne Hiance, President of the HealthTech For Care

## Who can attend ?

HealthTech For Patients is a **free event for everyone** who wants to learn more about health data for patients, you should join this digital event!

Whether you are part of a **patient association**, a **public health organization**, an **industrial actor** or a **start-up** in the health sector, a **public or private financier** or **personally interested** in these topics, you are welcome !

## Why attend ?

Don't miss the opportunity to listen to many european expert and KOLs who bring together expertise and knowledge about health innovation for patients !
