In Paris* & virtually

*The HealthTech Space
16 Place de la Bourse, 75002 Paris

HealthTech Innovation Days: event with a European dimension

Maryvonne Hiance
President of HealthTech For Care

Hello everyone,

A flagship event of the European healthtech ecosystem, the HealthTech Innovation Days (HTID®) brings together every year more than 800 participants, including 300 global investors, 170 innovative European health companies and about 15 pharmaceutical groups.

Launched in 2019, at the initiative of France Biotech, and organized today by HealthTech For Care, these days offer a platform for promising European life science companies to accelerate their growth and bring innovation to patients.

The 4th edition will take place on October 13 and 14, 2022 in a hybrid format, in Paris, at the Healthtech Space (Place de la Bourse), and on a virtual platform allowing to follow the different round tables as well as to carry out individual meetings.

The HTID®s are organized by the HealthTech For Care endowment fund, placed under the High Patronage of Emmanuel Macron, President of the French Republic, and sponsored by international pharmaceutical companies, key players in healthcare innovation, investors and numerous international opinion leaders.

HealthTech Innovation Days asserts its European position with the support of a dozen European clusters that participate in making this event a gathering of the European healthcare ecosystem.

HTID in numbers

2 days in Paris & virtually

20 conferences with key players in the European healthcare ecosystem

+ 800 attendees from **20** different countries

17 collaborations with European clusters

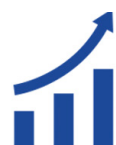

+1300 private meetings avec des investisseurs internationaux et des groupes pharmaceutiques

+170 with international investors and pharmaceutical groups

15 pharmaceutical groups (BD & CVC departments) & industrial actors

+ 300 international investors

Agenda of conferences – HealthTech Innovation Days 2022

Link for watching conference on live:
<https://vimeo.com/event/2430034/b1db743642>

Thursday, October 13

8:00am - 8:55am (CET)

Opening ceremony

Speech of Mr Roland Lescure, French Minister of Industry & Mr Andrzej Rys, Principal Scientific Adviser - Directorate-General for Health and Food Safety, European Commission

9:00am - 9:50am

Build tomorrow's healthcare for all European citizen

9:50am - 10:05am

Break & Networking

10:05am - 10:55am

Funding Innovation: is there a creative approach smarter than pouring money?

11:00am - 12:10pm

Age-related diseases, a continuum from birth to death

12:10pm - 1:20pm

Lunch & Networking

1:20pm - 1:40pm

How collaboration between pharmaceutical and biotech companies may unleash the full potential of cell therapy?

1:45pm - 2:25pm

A vision of the future: European health systems transformations in 2032

2:30pm - 3:25pm

Covid wake up call on health innovation investments – Opportunities and turbulence

3:25pm - 3:50pm

Break & Networking

3:50pm - 4:10pm

Particularities of investing in digital health

4:15pm - 5:10pm

How AI is revolutionizing the patient-doctor relationship

5:15pm - 6:15pm

Translational microbiome medicine to treat serious oncology and infectious diseases

6:15pm - 6:30pm

Break & Networking

6:30pm - 6:45pm

People at the heart of Life Science Investing: in conversation with Sabine Dandiguan, Managing Partner, Jeito Capital

6:50pm - 7:30pm

Speech, Hubert Gambs,

Deputy Director-General DG GROW – Internal Market, Industry, Entrepreneurship and SMEs, European Commission

7:30pm - 10:00pm

Cocktail

Friday, October 14

8:15am - 8:50am

In vitro diagnostics industry in Europe: at the heart of patient's care

8:50am - 9:35am

Being Listed: Challenges and Opportunities

9:35am - 10:05am

Break & Networking

10:05am - 10:55am

Matching the required talents for a sustainable development: constraints and opportunities!

11:00am - 11:55am

Impact of mRNA application in innovative drugs with the support of adapted manufacturing settings

11:55pm - 1:00pm

Lunch & Networking

1:00pm - 1:55pm

Closing the gap in Women's Health: we need to be the change

2:00pm - 2:55pm

Digital innovation tools empowering patients in collaboration with healthtech, pharma and investors

2:55pm - 3:05pm

Break & Networking

3:05pm - 3:45pm

Social impact of an effective North Atlantic Bridge for long-term innovation

3:50pm - 4:30pm

Closing ceremony with awards for the pitching companies

Programme around six thematic

Towards a Europe of Health

European nations share common objectives in terms of improving the quality of life and increasing life expectancy. This convergence must lead the European Union to develop a strategy to advance the «right of access to health for all» and to meet the challenges of financing and innovation, in order to build a Europe of health at the service of all citizens and patients of the EU.

Build tomorrow's healthcare for all European citizen

Christian Pierret, Former French Minister in Charge of Industry (Moderator)

Daniel Cohen, MD, PhD, Medical Geneticist, Co-founder of Genethon and serial entrepreneur

Michel Goldman, resident of the I3h Institute at the Université libre de Bruxelles, and Former Executive Director of the European Medicines Initiative

Felicitas Riedl, Director of the Innovation and Competitiveness Department – Projects Directorate at European Investment Bank (EIB)

A vision of the future: European health systems transformations in 2032

Anca Petre, HealthTech & Web3 Speaker & Consultant Cofounder @23 Consulting – Author (moderator)

Emmanuel Bacry, Chief Scientific Officer, Health Data Hub

Christophe Cosio, Value, Access and Policy Executive Director, Amgen France

Louisa Stüwe, Project director – Ministerial Digital Health delegation, French Ministry of Health & Prevention

Isabelle Zablitz, eHealth Europe & International Director, French Ministry of Health

The new frontiers of innovation in healthcare

Breakthroughs and innovations in biotechnology (genomics, mRNA, immunology, etc.) are beginning to bear fruit, while digitalization and the advent of artificial intelligence are giving a powerful boost to all scientific areas.

Age-related diseases, a continuum from birth to death

Antoni Montserrat, Vice President at the Luxembourg National Committee for rare diseases (Moderator)

André Baruchel, Professor of Paediatrics – Head of Department at APHP, University of Paris

Ana Limón, SVP Clinical Development & GMA. at Oryzon Genomics

Ross Jeggo, Global Head of Neuroscience and Immuno-inflammation, R&D at Servier

Walid Kamoun, Global Head of R&D Oncology at Servier

Gary Waanders PhD MBA, Head of Investor Relations and Communications AC Immune SA

Impact of mRNA application in innovative drugs with the support of adapted manufacturing settings

Philippe Kourilsky, Professor Emeritus at Collège de France (Moderator)

Bruno Poddevin, Senior Vice-President, Business and Corporate Development at DNA Script

Regis Gervier, Global Head, mRNA Center of Excellence at Sanofi

Marcel Hollenstein, Group leader at Pasteur Institute

Christoph Huber, Co-founder BioNTech

Translational microbiome medicine to treat serious oncology and infectious diseases

Isabelle de Cremoux, CEO and Managing Partner at Seventure Partners (Moderator)

Hervé Affagard, Founder and CEO at MaaT Pharma

Carl Bilbo, Senior Vice President and Global Franchise Head at Ferring Pharmaceuticals

Mohamad Mohty, Professor of Hematology at Sorbonne University,

Tim Sharpington, COO at Microbiotica

Hassane Zarour, Professor of Medicine, Immunology and Dermatology at University of Pittsburgh

How AI is revolutionizing the patient-doctor relationship

Emmanuelle Trombe, Lawyer and Partner at McDermott Will & Emery (Moderator)

Koen Cobbaerts, Senior Manager – Quality, Standards & Regulations at Philips

Clara Moschetti, Partnership and Project Manager at AI for Health by Startup Inside

Patrick Boisseau, Director General, Strategic Initiatives at MedTech Europe

Katja Niedermeier, Specialist in general medicine, diabetologist at Praxis

Andrea Touppen, Nutritional Scientist, Patient, Type 1-diabetic

Closing the gap in Women's Health: we need to be the change

Elsy Boglioli Hofman, Founder and CEO at Bio-Up (moderator)

Bianca Coulter, CEO at Coulter Partners

Gonzague Issenmann, Executive Chairman and CEO at Womed

Marieta Jiménez, Senior Vice President Europe at Merck Healthcare

Jenny Yip, Managing Partner at Adjuvant Capital

Marcel van Duin VP, Head of External Innovation & Emerging Science at Organon

Particularities of investing in digital health

Simon Turner, Partner, Sofinnova

Sophie Pelé, Partner, Dechert

The ongoing challenge of funding health innovation:

Healthtech companies need solid and constant financial support at every stage of their development, from the laboratory to market access. From the laboratory to market access. They rely on public aid schemes and a network of a network of investors specialized in life sciences, who must constantly adapt to an unstable environment.

Funding Innovation: is there a creative approach smarter than pouring money?

Philippe Lopes-Fernandes, Executive Vice President, Chief Business Officer, at Ipsen (Moderator)

Laurent Arthaud, Managing Director for Investments in Lifesciences, Ecotechnologies and French Tech at Bpifrance

Iordanis Arzimanoglou, Programme Manager for Health and Biotechnology, at European Innovation Council, European Commission

Jean-Marc Bourez, CEO ad interim at EIT Health, Managing Director at EIT Health France

Enric Claverol-Tinturé, Programme Manager for Medical Technologies and Medical Devices, at European Innovation Council, European Commission

Johanna Michielin, Head at Biolabs France

Covid wake up call on health innovation investments – Opportunities and turbulence

Cédric Moreau, Partner at Sofinnova partners (Moderator)

Yann Le Flohic, Country Director at Life Sciences Acceleration Alliance, Co-founder at Allison+Partners PR France

Elena Coluccelli-Guérin, Managing Partner, Healthcare M&A, focus on mid cap at Rothschild & Co

Aniz Girach, Ophthalmologist, Board Director, Chief Medical Officer at ProQR Therapeutics

How collaboration between pharmaceutical and biotech companies may unleash the full potential of cell therapy?

Luigi Ravagnan, Executive Director, WW Strategic Collaborations, Global Medical Affairs, Bristol Myers Squibb

Michael Lanero Fidalgo, Chief Operating Officer, Treefrog

Shivani Srivastava, Vice President, Cell Therapy Development, Bristol Myers Squibb

Being listed: Challenges and Opportunities

Guillaume Morelli, Head of SME Listing France at Euronext (Moderator)

Dominique Costantini, Chairman and Director of early Development at OSE Immunotherapeutics

Michael Kloss, CEO and Co-founder at eureKING

Jean Luc Vandebroek, Chief Financial Officer, IR and Communication at Hyloris Pharmaceuticals

Putting the patient back at the heart of innovation:

«Putting citizens at the center, giving them the power to control their data in order to benefit from better health-care» is the ambition stated by the European Commission. Digitization and point-of-care technologies are opening the way to a true consideration of the patient, both in terms of therapy and diagnosis, from the design of solutions to real-life monitoring.

Digital innovation tools empowering patients in collaboration with healthtech, pharma and investors

Erik Tambuyzer, Innovation in human healthcare (Moderator)

Uroš Bogdanovic, Attorney at law at ANDRIC Attorneys-at-law, IDF Young Leader in Diabetes

Anaïs Le Corvec, Network Manager at CEBR, Co-Founder at Cliclab Transformative Agent

Alain Herrera, Oncologist at Alain Oncologie Consulting and Hematologist at Antoine Bécclère Hospital

Christian Policard, Board member, HealthTech For Care

Marion Soto, VP Business Development at Ariana Pharma

Jenny Yip, Managing Partner at Adjuvant Capital

In vitro diagnostics industry in Europe: at the heart of patient's care

Gérald Ulrich, CEO at Quantamatrix Europe (Moderator)

Marie Anson, Project Manager biomarkers & biomanufacturing, EIT Health

Ludovic Bal, Co-founder at General Manager France, LumiraDx

Michel Lainé, Marketing Director Infectious Diseases at Bio-Rad Laboratories

Mobilize human resources and talents

The current revolutions in the health sector can be a formidable engine of growth for Europe. But this growth will need good arms and good heads. The war for skills is already going on between ecosystems and companies. It requires investments but also new modes of organization and cooperation.

Matching the required talents for a sustainable development: constraints and opportunities!

Frederik Alberchtsen, Consultant at Russell Reynolds Associates (Moderator)

Claude Bertrand, Executive Vice President R&D at Servier

Elsy Boglioli Hofman, Founder and CEO at Bio-Up

Marie Daniel, General Secretary at TreeFrog Therapeutics

Bernard Gilly, CEO at GenSight Biologics

Vanessa Malier, Managing Partner at Kurma Partners

Building a transatlantic bridge to a sustainable and impactful global societal health economy and impactful health economy at the global level

The EU can count on many assets to enhance its potential. But it can never isolate itself. The construction of an effective North Atlantic bridge is essential to ensure close and permanent cooperation between laboratories, businesses and international companies, in the fields of academic and applied research, long-term innovation and industrial cooperation.

Social impact of an effective North Atlantic Bridge for long-term innovation

Pierre Courteille, Chief Commercial Officer & Vice President Business Development at Abivax (Moderator)

Gabriela Apiou, Strategic Alliances Director, Massachusetts General Hospital Research Institute, Harvard Medical School

Patrick Apiou, Philosophy and Social Sciences Highschool Faculty, International School of Boston

Florian Eichler, Director of Center for Rare Neurological Diseases, Massasuchetts, General Hospital, Harvard Medical School

The HealthTech For Care Innovation Award

25 European companies from the Biotech, Medtech, Innovative Services & Digital Health sectors, committed to patients, selected by the European clusters, will present their innovation to a jury composed of HTFC's sponsors and the HTID health innovation ecosystem.

Location:

Level 1

Timing:

Thursday October 13

12:45pm – 2:10pm
&
3:30pm – 4:45pm

Friday, October 14

8:30am – 9:40am
&
12:45pm – 1:45pm

The HealthTech For Care Innovation Award
will take place on Friday, October 14 at 4:00 pm

OUR COLLABORATIONS

HealthTech For Care, organiser of HealthTech Innovation Days

The HealthTech For Care endowment fund aims to support and promote access to healthcare for all, and in particular to new medical technologies and medicines. The missions of the endowment fund are organized around three axes: to support the development of the entire healthcare ecosystem, to accelerate the development of innovative therapies and medicines, and to promote better access for patients to the healthcare system in France and Europe. The governance of HealthTech For Care is composed of Maryvonne Hiance, Elsy Boglioli, David Caumartin, Pierre Courteille, Marc Dechamps, Eric Falcand, Frédéric Girard, Marc Julien, Anaïs Le Corvec, Cédric Moreau, Christian Pierret and Christian Policard.

HealthTech For Care is supported by its founder France Biotech and the network of French health clusters: Atlanpole biotherapies, BioValley France, EuroBioMed, LyonBioPole, Medicen and the NSL clubster. The Endowment Fund is also supported by many European players: Asebio, BIO Deutschland, BioWin, CEBR, Federchimica Assobiotech, flanders.bio, Irefi, Medvia and the Swiss Biotech association.

HealthTech Innovation Days – HTID®

The HTID® event provides a venue for promising European life science companies to accelerate their growth and bring innovation to patients. The forum takes place on October 13-14, 2022 in a hybrid format, combining in-person presentations, panels and one-on-one meetings in Paris with a virtual platform for those unable to attend in person.

Organized by HealthTech For Care, the objectives of HTID® are to enable partnerships between international healthcare companies as well as to secure funding from international healthcare investors. HealthTech Innovation Days is sponsored by international pharmaceutical companies, industrial companies and key supporters in the HealthTech space. Placed for the fourth consecutive year under the High Patronage of Mr. Emmanuel Macron, President of the French Republic, HTID® will take place in the presence of several institutional representatives.
