For Care

Welcome to HealthTech Innovation Days October 13&14 2022 In Paris* & virtually

*At the HealthTech Space
16 Place de la Bourse, 75002 Paris

Maryvonne Hiance
President of HealthTech For Care

Dear Attendees,

Welcome to the fourth edition of HealthTech Innovation Days (HTID)!

Healthcare access and treatments for every patient is a societal priority!

Today, many innovative healthcare companies are seeking to bring their innovations to patients and meet the medical challenges of tomorrow. The European healthcare sector is a rich fabric of hundreds of start-ups and SMEs dedicated to the development of drugs, medical devices and innovative digital tools, constitutes a bridge between academic research and industry.

More than ever, the ability to connect companies, researchers, experts and healthcare professionals to serve patients is a priority. The main objective of HTID is to foster collaborations within the European healthcare and life sciences ecosystems and to accelerate the commercialization of new drugs and therapeutic solutions to the market.

For 4 years now, HTID has succeeded in bringing together key players in health innovation, global pharmaceutical companies, investors, institutional representatives, and patient organizations to make this event impactful in this space. Most of our sponsors and collaborations are supporters since the first edition.

HTID is also an opportunity to discuss tomorrow's health major challenges with European experts with topics around investment and development of the health sector in Europe.

Placed for the fourth consecutive year under the High Patronage of Mr. Emmanuel Macron, President of the French Republic, HTID will take place in the presence of institutional personalities, in the presence of Mr. Iordanis Arzimanoglou, Program Manager for health and biotechnology au European Innovation Council (EIC), Mr. Enric Claverol Tinture, Head of the Medical Technologies Programme au European Innovation Council (EIC), Mr. Hubert Gambis, Deputy Director-General DG GROW - Internal Market, Industry, Entrepreneurship and SMEs, and Ms. Felicitas Riedl, Director of the Innovation & Competitiveness Department of our Projects Directorate at the European Investment Bank (EIB).

The organisation team wishes you a pleasant event!

HealthTech Innovation Days – HTID®

The HTID® event provides a place for promising European life sciences companies to accelerate their growth and bring innovation to patients. The forum is taking place on October 13&14 2022 in a hybrid format, combining in-person presentations, panels and one-on-one meetings in Paris with a virtual platform for those unable to attend in person. Organized by HealthTech For Care, HTID® objectives are to enable partnerships between international healthcare companies as well as to secure funding from international, specialized healthcare investors. The HealthTech Innovation Days are sponsored by international pharmaceutical companies, industrial companies and key support in the healthtech space. Placed for the fourth consecutive year under the High Patronage of Mr Emmanuel Macron, President of the French Republic, HTID® will take place in the presence of several institutional representatives.

What does HTID provide access to?

Private meetings:

Meet innovative European healthcare companies, industrial & pharmaceutical groups and international investors

Sessions:

Hot topics addressing all participants need

Networking event:

Exchange with key players from the European health ecosystem

HealthTech For Care, organizer of HealthTech Innovation Days

The HealthTech For Care Endowment Fund is designed to support and promote access to care for all and, in particular, new medical technologies and drugs. The missions of the endowment fund are organized around three main areas: supporting the development of the entire healthcare ecosystem, accelerating the development of innovative therapies and medicines, and promoting better access for patients to the healthcare system in France and Europe. The governance of HealthTech For Care includes Maryvonne Hiance, Elsy Boglioli, David Caumartin, Pierre Courteille, Marc Dechamps, Eric Falcand, Frédéric Girard, Marc Julien, Anaïs Le Corvec, Cédric Moreau, Christian Pierret and Christian Policard.

HealthTech For Care is supported by its founder France Biotech and the network of French health cluster: Atlanpole biotherapies, BioValley France, EuroBioMed, LyonBioPole, Medicen and the clubster NSL. The Endowment Fund is also supported by many European players: Asebio, BioAlps, BIO Deutschland, BioWin, CEBR, Federchimica Assobiotech, flanders.bio, Irefi, Medvia and Swiss Biotech association.

France Biotech, Founder of HealthTech For Care, initiator of HTID

France Biotech was founded in 1997 as an independent association, uniting the country's leading innovative health companies and their expert partners. As a leader in health innovation working in close cooperation with public authorities in France and across Europe, France Biotech is ideally positioned to address the challenges facing the HealthTech sector, notably corporate finance, taxation on innovation and regulatory and market access-related

issues. Its committees and working groups strive to identify viable solutions to create the necessary conditions for a competitive and attractive industry. France Biotech's mission is to support HealthTech startups and SMEs in their quest for international expansion and give them the capability to rapidly design and develop new innovations and get them to patients. France Biotech founded and developed the "HealthTech For Care" fund to bring together, structure and encourage cooperation between the various HealthTech stakeholders in France and Europe. Since September 2019, France Biotech is chaired by Franck Mouthon, CEO of TheraNexus.

Discover our long-term partners

With Amgen Innovations, we are strengthening our commitment to healthcare and research players in France. Concretely, we act as a catalyst around three key actions that structure this unprecedented programme: to undertake partnerships with start-ups to reinvent the health path, to support calls for research projects to discover the therapeutic innovations of tomorrow and to strengthen our support.

to caregivers facing the challenges of their profession. Associating biological and technological progress with human and social sciences opens up the field of possibilities. Convinced of the richness of the French ecosystem in terms of innovation, through Amgen Innovations, we wish to contribute to the emergence of healthcare solutions that have meaning for patients and healthcare professionals.
