Welcome to HealthTech Innovation Days October 24&25 2023 In Paris

*At the HealthTech Space
16 Place de la Bourse, 75002 Paris

EDITO

Maryvonne Hiance
President of HealthTech For Care

Dear Attendees,

Welcome to the fifth edition of HealthTech Innovation Days (HTID®)!

Ensuring healthcare access and optimal treatments for every patient is a paramount societal concern.

Now, more than ever, the imperative to connect companies, researchers, experts, and healthcare professionals in service of patients looms large. Within this context, the European HealthTech sector emerges as a vibrant tapestry comprising myriad startups and SMEs fervently dedicated to advancing drugs, medical devices, and pioneering digital tools. This sector serves as a pivotal conduit between academic research and industry.

HTID's principal objective resides in catalyzing innovation to expedite the introduction of new drugs and therapeutic solutions into the European market, benefitting patients across the continent.

For half a decade, HTID® has admirably congregated pivotal figures within the realm of health innovation: global pharmaceutical giants, international investors, esteemed institutional representatives, patients, and patient organizations. This cumulative effort has undeniably endowed our event with substantial impact. A multitude of our sponsors and collaborators have steadfastly supported our mission and endeavors since the inaugural edition.

Moreover, HTID serves as an opportune forum for deliberating upon the competitive landscape of the European healthcare industry, the equitable dissemination of innovative breakthroughs among patients, and the far-reaching repercussions of legislative transformations in both Europe and the United States upon stakeholders in healthcare innovation.

Now in its fifth consecutive year, HTID retains the distinguished honor of operating under the High Patronage of Mr. Emmanuel MACRON, President of the French Republic. The event is graced by the presence of esteemed individuals, including Mr. Iordanis Arzimanoglou, Program Manager for Health and Biotechnology at the European Innovation Council (EIC)- Mr. Olivier Becht, Minister Delegate for Foreign Trade, Attractiveness, and the French Abroad - Mr. Enric Claverol Tinture, Head of the Medical Technologies Program at the European Innovation Council (EIC) - Alain Godard, Chairman and Managing Director of the European Fund for Digital Sovereignty - and Pierre Delsaux, Director of HERA at the European Commission.

The organisation team wishes you a pleasant event!

[HealthTech Innovation Days](#) - HTID®

HealthTech Innovation Days (HTID®), initiated by France Biotech and implemented by the HealthTech For Care endowment fund, provides a forum for all stakeholders in the life sciences to meet and bring innovation to patients.

Each year, HTID brings together over 800 participants in Paris. The 5th edition will take place on October 24 and 25, 2023 in Paris, and on October 27 in virtual form only.

Activities during HTID#5

Meet

experts to support the developments of your company and accelerate the deployment of your innovation to patients.

Attend

panels led by international experts to learn on key topics.

Gather

within the European innovative healthcare community.

Participate

Pitches and poster sessions of projects putting the patient at the heart of their innovation.

[HealthTech For Care](#), organizer of HealthTech Innovation Days

The HealthTech For Care endowment fund is designed to support and promote access to healthcare for all, and in particular to new medical technologies and medicines. The endowment fund's missions are three-fold: to support the development of the entire healthcare ecosystem, to accelerate the development of innovative therapies and medicines, and to promote better patient access to the healthcare system in France and Europe.

HTFC is governed by Maryvonne Hiance, Elsy Boglioli, Pierre Courteille, Marc Dechamps, Christian Deleuze, Eric Falcand, Frédéric Girard, Marc Julien, Anaïs Le Corvec, Bernard Linsmeau, Cédric Moreau, Christian Pierret and Christian Policard.

HealthTech For Care is supported by its founder France Biotech and the network of French health cluster: Atlanpole biotherapies, BioValley France, EuroBioMed, LyonBioPole, Medicen, the clubster NHL and Technion France. The Endowment Fund is also supported by many European players: Asebio, BioAlps, BIO Deutschland, BioRegion Stern, BioWin, CEBR, Danish Lifescience cluster, Federchimica Assobiotech, flanders.bio, Irefi, Medvia, Swiss Biotech association.

LES ENTREPRENEURS DE LA HEALTHTECH

France Biotech was founded in 1997 as an independent association, uniting the country's leading innovative health companies and their expert partners. As a leader in health innovation working in close cooperation with public authorities in France and across Europe, France Biotech is ideally positioned to address the challenges facing the HealthTech sector, notably corporate finance, taxation on innovation and regulatory and market access-related issues. Its committees and working groups strive to identify viable solutions to create the necessary conditions for a competitive and attractive industry. France Biotech's mission is to support HealthTech startups and SMEs in their quest for international expansion and give them the capability to rapidly design and develop new innovations and get them to patients. France Biotech founded and developed the "HealthTech For Care" fund to bring together, structure and encourage cooperation between the various HealthTech stakeholders in France and Europe. Since September 2019, France Biotech is chaired by Franck Mouthon, CEO of Theranexus.

Our sponsors

Discover our long-term sponsors

With Amgen Innovations, we are strengthening our commitment to healthcare and research players in France. Concretely, we act as a catalyst around three key actions that structure this unprecedented programme: to undertake partnerships with start-ups to reinvent the health path, to support calls for research projects to discover the therapeutic innovations of tomorrow and to strengthen our support to caregivers facing the challenges of their profession. Associating biological and technological progress with human and social sciences opens up the field of possibilities. Convinced of the richness of the French ecosystem in terms of innovation, through Amgen Innovations, we wish to contribute to the emergence of healthcare solutions that have meaning for patients and healthcare professionals.

European Patent & Trade Mark Attorneys

ICOSA is an intellectual property law firm dedicated to the the Health, Environment and Agri-food sectors.
